

For classes with any in-person interaction

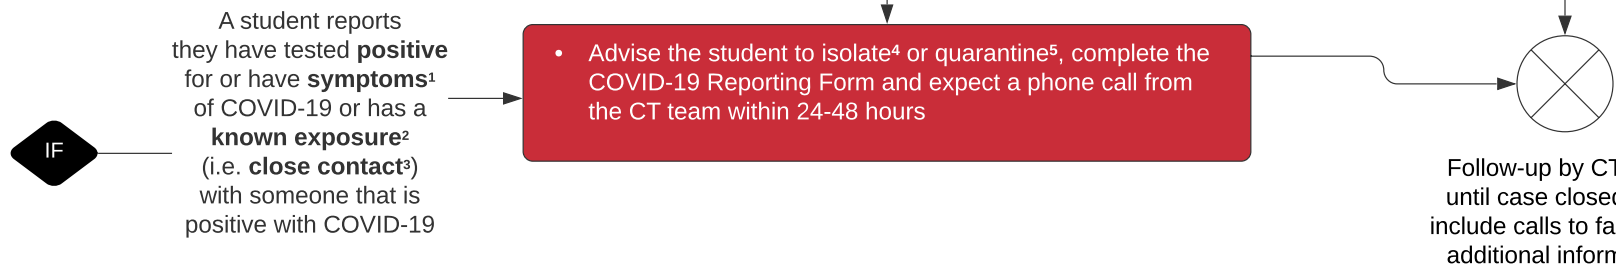

*** Details needed when reporting on behalf of a student**

- Your full name and uNID
- Your call back number
- Class details
- Classroom location (or if online)
- Student name and uNID (if known)

The information will be sent to the CT team for investigation and follow-up.

For all other classes

If you have NOT been identified as a close contact by the CT team, but still have concerns and would like to be tested, please visit <https://alert.utah.edu/covid/>

COVID-19 Reporting Form: <https://coronavirus.utah.edu/reporting>

If you need additional assistance, please call General Campus Questions Hotline at 801-213-2874, and press 2. This form is available 24/7 to report a positive case, symptoms, known exposure or close contact.

¹ Symptoms: fever, chills, new or worsening chronic cough, runny nose, sore throat, new loss of taste or smell, nausea, vomiting, diarrhea, fatigue, headache, muscle/body aches, or difficulty breathing/shortness of breath.
² Known exposure is defined as having confirmed that an individual was in close contact³ with someone who has tested positive for COVID-19
³ Close contact is defined as less than 6 feet of distance for more than 15 minutes
⁴ Isolation separates sick people with a contagious disease from people who are not sick. The CT team will advise the student on how long isolation will last.
⁵ Quarantine separates and restricts the movement of people who were exposed to a contagious disease to see if they become sick. These people may have been exposed to a disease and do not know it, or they may have the disease but do not show symptoms. The CT team will advise the student on how long the quarantine will last.
